

State Insurance Regulatory COVID-19 Updates

* In recent weeks, state insurance regulators have been issuing emergency regulations, guidance documents, and press releases to assist regulated entities regarding the provision of insurance-related services during the novel coronavirus (COVID-19) outbreak. **The recent updates are denoted below in red, including:**

- [Alaska](#) issued a Bulletin waiving requirements for insurers to conduct on-site reviews until December 31, 2020, among other things.
- [Maryland](#) issued a Bulletin clarifying certain limited exceptions to the moratorium on cancellations/non-renewal notices for non-payment of premiums during the 60- day moratorium period, among other things.
- [New Jersey](#) issued Bulletins extending regulatory relief for licensees and providing additional guidance regarding temporary producer licenses.
- [New York](#) issued a Circular Letter and Bulletin extending various regulatory deadlines to November 5, 2020.
- [Utah](#) issued a Bulletin providing guidance regarding federal requirements for coverage of COVID-19 testing.

* Most notably, a brief overview chart is provided below with respect to the recent stay-at-home orders in Alabama, Arizona, Alaska, California, Colorado, Connecticut, Delaware, the District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, Washington, West Virginia, and Wisconsin. Please note, the answers provided are brief. If you would like to see the specific language of the order, please use the hyperlinked state to direct you to the broader state-specific entry.

* In addition, we have begun tracking state efforts to enhance eligibility for workers' compensation for certain frontline employees. The requirements vary significantly from state to state. The states that have acted thus far include Alaska, Arizona, Arkansas, California, Florida, Kentucky, Michigan, Missouri, New Hampshire, New Mexico, North Dakota, and Washington.

* Many of the states have issued bulletins that contain the following information:

- **Information Access.** Asks insurers to inform insureds of available benefits, quickly respond to insured inquiries, and consider revisions needed to streamline response and benefits for insureds.
- **Testing.** Requests/requires insurers to waive cost-sharing for (1) COVID-19 testing and (2) in-network provider office visits, urgent care center visits, and emergency room visits.
- **Telehealth Delivery of Services.** Reminds insurers to ensure their telehealth programs are robust and will be able to meet increased demand.
- **Network Adequacy and Access to Out-of-Network Services.** Requests insurers to verify their provider networks are adequate to handle a potential increase in the need for health care services and requests insurers that do **not** have a provider in their networks with the appropriate training/experience to meet the health care needs of insureds make exceptions to provide access to an out-of-network provider at the in-network cost-sharing level.
- **Immunizations.** In the event an immunization becomes available, requests that insurers immediately cover the immunization at no-cost sharing.
- **Access to Prescription Drugs.** Asks insurers to make expedited formulary exceptions in certain circumstances and requests that insurers allow insureds to fill and refill prescription medications for up to a 90-day supply/until the prescription expires.

Not every state has followed this model and some states deviate in important respects (e.g., by specifically addressing surprise billing, ambulance services, etc.). The below survey details the available state resources, the date on which the resources were issued, and a brief summary offering a general overview of the guidance offered. In particular, it focuses on cost-sharing waivers, telehealth services, treatment of out-of-network providers offering in-network services, etc.

* We envision this as an evergreen document that we will aim to update **daily**. If you operate in a state and notice that we have not included the most up-to-date guidance, please let us know.

States	Does the state have a shelter-in-place/mass business closure order in place?	Does it cite or reference federal guidance governing critical infrastructure?	Is the insurance industry deemed an “essential business” or otherwise exempt from a closure obligation?	Has the state started lifting restrictions on non-essential businesses?

	Company Bulletin 2020-08	04/03/2020	<ul style="list-style-type: none"> Allows the use of temporary death certificates as due proof of death in policies covering preneed funeral contracts and prearrangements.
	Company Bulletin 2020-06	03/31/2020	<ul style="list-style-type: none"> Advises electronic submission of required filings and documents.
	Company Bulletin 2020-05	03/30/2020	<ul style="list-style-type: none"> Provides guidance regarding ACA filing requirements, deadlines and extensions.
	Company Bulletin 2020-04	03/25/2020	<ul style="list-style-type: none"> Provides guidance with respect to coverage of telehealth services.
	Executive Order 2020-10	03/20/2020	<ul style="list-style-type: none"> Requires all individuals currently living within the state to stay at home or at their place of residence, unless they work in essential businesses and operations. Deems financial institutions (e.g. banks, currency exchanges, consumer lenders, credit unions, appraisers, title companies, financial markets, trading and futures exchanges, affiliates of financial institutions, entities that issue bonds, related financial institutions, and institutions selling financial products).
	Company Bulletin 2020-02	03/02/2020	<ul style="list-style-type: none"> Notes that the CDC and the Illinois Department of Public Health have agreed to bear the cost of the lab test for the presence of COVID-19 (however, clarifies that it is possible that hospitals will still charge their own fees for collecting the specimens). Reminds insurers of the state's balance billing provisions (i.e., requires insurers to impose no greater cost-sharing on an enrollee than their coverage provides at the in-network level when the enrollee receives care from certain specialists at participating network hospitals or ambulatory surgical centers, even if the specialists themselves are not participating providers; requires coverage of emergency services for an emergency medical condition at the in-network level regardless of which provider performs the services). Encourages insurers to consider all feasible and prudent options to reduce the barriers of cost-sharing for testing and treatment of COVID-19 during the outbreak. Requires travel insurance—absent an applicable exception—to presumptively cover such risks related to COVID-19.
