

## State Insurance Regulatory COVID-19 Updates

\* In recent weeks, state insurance regulators have been issuing emergency regulations, guidance documents, and press releases to assist regulated entities regarding the provision of insurance-related services during the novel coronavirus (COVID-19) outbreak. **The recent updates are denoted below in red, including:**

- [Alabama](#) issued a Bulletin extending a previous Bulletin relaxing certain regulatory requirements for producer licensing and continuing education courses, among other things.
- [Alaska](#) issued a Bulletin reminding insurers of a previous Bulletin expanding telehealth coverage for certain health plan services.
- [California](#) issued a Notice requesting health insurers to issue premium refunds to policyholders, among other things.
- [Nebraska](#) issued a Notice waving certain exam requirements for licensed producers through December 31, 2020.
- [New Hampshire](#) issued a Bulletin clarifying the current rate filing deadline as November 15, 2020.

\* Most notably, a brief overview chart is provided below with respect to the recent stay-at-home orders in Alabama, Arizona, Alaska, California, Colorado, Connecticut, Delaware, the District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, Washington, West Virginia, and Wisconsin. Please note, the answers provided are brief. If you would like to see the specific language of the order, please use the hyperlinked state to direct you to the broader state-specific entry.

\* In addition, we have begun tracking state efforts to enhance eligibility for workers' compensation for certain frontline employees. The requirements vary significantly from state to state. The states that have acted thus far include Alaska, Arizona, Arkansas, California, Florida, Kentucky, Michigan, Missouri, New Hampshire, New Mexico, North Dakota, and Washington.

\* Many of the states have issued bulletins that contain the following information:

- **Information Access.** Asks insurers to inform insureds of available benefits, quickly respond to insured inquiries, and consider revisions needed to streamline response and benefits for insureds.
- **Testing.** Requests/requires insurers to waive cost-sharing for (1) COVID-19 testing and (2) in-network provider office visits, urgent care center visits, and emergency room visits.
- **Telehealth Delivery of Services.** Reminds insurers to ensure their telehealth programs are robust and will be able to meet increased demand.
- **Network Adequacy and Access to Out-of-Network Services.** Requests insurers to verify their provider networks are adequate to handle a potential increase in the need for health care services and requests insurers that do not have a provider in their networks with the appropriate training/experience to meet the health care needs of insureds make exceptions to provide access to an out-of-network provider at the in-network cost-sharing level.

- **Immunizations.** In the event an immunization becomes available, requests that insurers immediately cover the immunization at no-cost sharing.
- **Access to Prescription Drugs.** Asks insurers to make expedited formulary exceptions in certain circumstances and requests that insurers allow insureds to fill and refill prescription medications for up to a 90-day supply/until the prescription expires.

Not every state has followed this model and some states deviate in important respects (e.g., by specifically addressing surprise billing, ambulance services, etc.). The below survey details the available state resources, the date on which the resources were issued, and a brief summary offering a general overview of the guidance offered. In particular, it focuses on cost-sharing waivers, telehealth services, treatment of out-of-network providers offering in-network services, etc.

\* We envision this as an evergreen document that we will aim to update daily. If you operate in a state and notice that we have not included the most up-to-date guidance, please let us know.

States	Does the state have a shelter-in-place/mass business closure order in place?	Does it cite or reference federal guidance governing critical infrastructure?	Is the insurance industry deemed an “essential business” or otherwise exempt from a closure obligation?	Has the state started lifting restrictions on non-essential businesses?
