

Relationships matter in Washington, just as they do in our business. Among the 72 different insurance trade associations, The Council's political action committee, CouncilPAC, is the largest. CouncilPAC supports Members of Congress who endorse a healthy commercial insurance brokerage industry.

HERE ARE SOME OF THE WAYS WE'VE PARTNERED WITH CONGRESS

- No Commission regulation and no public opinion in ACA
- Preservation of TRIA
- Implementation of NARAB to provide a single license to sell nationwide
- Premium taxes on surplus lines to be paid to home state of insured
- Wiped out countersignature laws in every state of the country

HERE'S WHAT WE'RE ACTIVELY WORKING ON IN WASHINGTON

HEALTHCARE

Preservation of the employer-based system and full repeal of the Cadillac Tax

FLOOD

NFIP reauthorization to include legislation to build private market involvement

FATCA

Exclusion of property/casualty insurance from overseas premium payments

The Council's advocacy team, with CouncilPAC as its principal weapon, works to ensure a competitive marketplace with minimal legislative or regulatory interference. Every dollar raised goes to building relationships with Members of Congress to achieve goals on behalf of your firm and our industry as a whole.
