

Anti-Rebating Laws and Regulations

- * Forty-eight states and the District of Columbia have enacted anti-rebate statutes, with most states enacting the NAIC Unfair Trade Practices Model Act (#880). These laws and related regulations and guidance generally prohibit insurers and producers from directly or indirectly offering inducements to purchase insurance to some but not all policyholders. Over time, many states have enacted carve-outs/exceptions to their anti-rebating laws with respect to certain “value-added” services, promotional items, raffles/drawings, etc. These carve-outs and exceptions, however, vary significantly from state-to-state.
- * The below survey outlines the existing statutory text, statutory carve-outs, associated regulatory provisions, and interpretive administrative guidance in the fifty states. It also includes a series of recent updates, including enacted legislation, finalized regulations, and newly-minted guidance documents. If applicable, updates will be noted throughout the survey in *bold and italicized blue text*.
- * We envision this survey to be an evergreen document. As updates are put forth—whether through legislative or administrative action—we will update the document and provide a brief overview of the relevant changes in this top box. We ask, therefore, that you continuously review the document for updates to any statutes, regulations, bulletins, or other guidance documents. That said, if you see laws enacted, regulations finalized, bulletins issued, or enforcement actions undertaken that are not reflected in this survey, please let us know!

It is an unfair trade practice for any insurer to commit any practice defined in Section 375.936 (see below) if certain requirements are met.

One such practice includes: Except as otherwise expressly provided by law, knowingly permitting or offering to make or making any contract of life insurance, life annuity, accident and health insurance or other insurance, or agreement as to such contract other than as plainly expressed in the insurance contract issued thereon, or paying or allowing, or giving or offering to pay, allow, or give, directly or indirectly, as inducement to such insurance or annuity, any rebate of premiums payable on the contract, or any special favor or advantage in the dividends or other benefits thereon, or any valuable consideration or inducement whatever not specified in the contract; or giving, or selling, or purchasing or offering or to give, sell, or purchase as inducement to such insurance contract or annuity or in connection therewith, any stocks, bonds or other securities of any insurance company or other corporation, association, or partnership, or any dividends or profits accrued thereon, or anything of value whatsoever not specified in the contract. MO. REV. STAT. § 375.936(9).

Insurer is defined to include any person, reciprocal exchange, interinsurer, Lloyds insurer, fraternal benefit society, and any other legal entity engaged in the business of insurance, including agents, brokers, adjusters and third-party

MONT. CODE ANN. § 33-18-209. 	<p>In interpreting permitted or prohibited activities, the Commissioner for Securities and Insurance relies on a two-part test to determine whether or not something is rebating under the statute: (1) the consideration must be nominal (i.e., less than \$50) and (2) it must be available to all. If either of these two components is not met, the consideration is considered a rebate. Advisory Memorandum 2016.</p> <p>Raffle: The nominal-value rule, however, may be bypassed if it is for a raffle. The raffle test allows for raffling items valued at greater than \$50 so long as the raffle is available to all and the sale of insurance is completely independent of the raffle. Advisory Memorandum 2016.</p> <p>The Commissioner provides several examples, including:</p> <p>A life insurance firm wants to offer free meals to persons attending a seminar hosted by the firm. So long as the aggregate value of the dinner and any promotional items given out at the dinner is under \$50 per attendee, this is acceptable.</p> <p>At a trade show, an agency seeks to hold a raffle with three separate prizes. Those prizes are a color television (valued at \$500), a microwave (valued at \$150), and a piece of pizza (valued at \$3). The pizza falls below the \$50 threshold and can be offered regardless of circumstances. The microwave and the television, however, can only be offered if the agency satisfies the raffle test. Therefore, the drawing (and the chance of winning the drawing) must first be available to all persons at the show, whether or not they are potential customers. Second, the drawing must be wholly independent of the actual purchase of insurance. It appears that this test is met, so long as there are no insurance applications being filled out at the trade show.</p> <p>An insurance agency wants to make a donation of \$75 to an</p>

			<p>unnamed charity for each policy purchased through one of its agents. It wishes to advertise this fact as well. Charity donations in certain situations are generally considered prohibited inducements when their values exceed \$50. However, this is not such a situation for two reasons: (1) the referrer will not select the charity, and (2) the insurer or agency will not identify the referrers in the course of making a donation. Therefore, the donation as limited value to each referrer individually and is more akin to a general charitable contribution.</p> <p>An insurance agency credits a policyholder account \$75 for each referral it receives from an active policyholder. This type of activity puts the insured in the position of actively soliciting persons on behalf of the insurance agency. In addition to constituting rebating, the scenario also implicates the producer licensing statutes. Advisory Memorandum 2016; see also Advisory Memorandum 2013.</p>

a consumer (that is not the charity itself) will not be considered an inducement or a rebate provided that all of the following are met:

- No pecuniary benefit is obtained by the insurer or producer, other than the income tax benefit of such contribution.
- No income tax benefits are passed through to the consumer by the insurer or producer making the contribution, and the consumer does not receive the contribution and has no direct or indirect interest in the recipient of the contribution.
- The amount of premium or commission to be charged is not altered as a result of the contribution.
- Records of all such offers and contributions are maintained for at least 5 years and are available to the Department for review and inspection upon request. N.J. ADMIN. CODE § 11:17A-2.3(f).

The above prohibitions against rebates and inducements do not prohibit an insurance producer from providing services or other offerings for free or at a discounted price and in a fair and non-discriminatory manner, provided that the service(s) or other offering(s) relate to or enhance the value of the insurance product being purchased. Services and other offerings that would not be prohibited include, but are not limited to:

- Discounts on gym memberships or wellness programs in connection with life, accident, health, workers' compensation, or sickness insurance products;
- Claims filing assistance, including group health insurance assistance services;
- COBRA, HRA, HSA, and FSA administration;
- Risk management services, including loss control; and
- Product audits to assist policyholders to evaluate their current policies. N.J. ADMIN. CODE § 11:17A-2.3(g).

However, services or monetary benefits provided for free or at a discounted price that inure to the personal benefit of the person and that are largely extraneous to the coverage being purchased or the insurance services being provided by an insurance producer, or services offered in a discriminatory manner as an inducement to write or move business are prohibited rebates or inducements. S.D. CODIFIED LAWS § 58-33-74. 	<p>The Department of Revenue & Regulation Insurance Division provided several hypothetical examples discussing what is permissible and impermissible under the anti-rebating law.</p> <p>Free Gift or Quote: An agent advertises in the local media that he will give a free coffee mug (under \$25 value) to anyone just for coming in for a quote on auto insurance. This action is permissible. The gift of a free coffee mug that is not tied to the purchase of insurance and is under \$25 is allowed. However, if the agent required that the prospective customer apply for coverage as a condition of receiving the gift, then it would not be permissible.</p> <p>Money on Renewal: An agent offers to give \$10 cash to an existing client because the policy offered through the agent costs \$10 more upon renewal than another policy available to the customer. This would be considered an illegal rebate. The \$10 cash payment is not a promotional item. It is also tied to the purchase of the policy.</p> <p>Quarterly Drawing: An agent is seeking to increase referrals to his agency. The agency would like to request referrals from its client and/or realtors, mortgage brokers and friends. Those submitting referrals would be eligible for a quarterly drawing for a \$300 Gift Card. The person submitting the referral would be eligible regardless, even if none of the referrals resulted in a sale. This would be permissible provided all of those submitting referrals are eligible for the drawing. There must be no obligation to purchase insurance and it must be open to clients and non-clients alike. Referrals are different than gifts to clients. The referral statute has no dollar limit as to the amount of the referral. However, all referrals must be flat amounts that do not vary based upon how many sales are made and do not vary based upon premiums or commissions.</p> <p>Free Lunches: An agent likes to provide free lunches at local</p>

	<p><i>Person is defined to include an individual, insurer, company, association, organization, Lloyds, society, reciprocal or inter-insurance exchange, partnership, syndicate, business trust, corporation, and any other legal entity. S.D. CODIFIED LAWS § 58-1-2.</i></p> <hr/> <p>No insurer may, directly or indirectly through its insurance producers or representatives, participate in any plan to offer or effect any kind or kinds of life insurance, health insurance, property insurance, casualty insurance, surety insurance, or annuities in this state as an inducement to, or in combination with, the purchase by the public of any goods, securities, commodities, services, or subscriptions to periodicals, except upon the payment of a bona fide premium by the insured. S.D. CODIFIED LAWS § 58-33-15.</p>		<p>restaurants to his clients in exchange for his clients purchasing insurance from his agency. This would be considered a rebate and is not permissible. No insurer or any employee or representative thereof may pay, allow, or give, directly or indirectly, as an inducement to insurance, or after insurance has been affected any valuable consideration or inducement whatever. Providing free lunches to clients in exchange for the clients purchasing insurance would violate this statute.</p> <p>Gas Giveaway: An insurance company wants to show its appreciation to a city for being a “safe driving” community. From 6:00 a.m. to 10:00 a.m. it wants to give away up to 15 gallons of gas per vehicle at a local gas station. The giveaway is open to the general public, regardless where insured. The price for gas at the time is \$1.79/gallon. The company will have representatives on hand pumping gas and a company banner is present. The representatives will not be handing out any promotional material. The gasoline give-away would be considered as advertising or promotional and therefore subject to the \$25 limitation. The fair market value of the gasoline give-away (15 gallons at \$1.79/gallon) exceeded the \$25 limit and therefore would not be permissible. A similarly structured gasoline give-away that limited the per customer amount to \$25 or less would be allowed. Bulletin 09-01.</p> <p>Additional prohibitions have also been enumerated in other bulletins by the Department, including:</p> <ul style="list-style-type: none"> • Negotiating commissions with an agent is an inducement and therefore prohibited as a rebate. <i>There is an exception for certain types of insurance that lend themselves to negotiating premiums with an insured because the products are not subject to approval by the Division.</i> Bulletin 13-04; Bulletin 06-06. • Reducing commissions to secure and/or retain new and renewal insurance business is an inducement for insurance and therefore is rebating.
